Requirement Sheet: IOTA Mall

1. Overview of IOTA Mall

IOTA Mall is an online shopping platform that sells products across categories like **Electronics, Home & Garden, Fashion**, etc. Customers purchase through different **devices (Desktop, Mobile, Tablet)** and are influenced by **marketing channels** such as Email, Social Media, and Direct Mail.

The dataset provides order-level insights on **customer demographics, purchasing behavior, and revenue generation**.

2. Problem Statement / Focus Terms during Analysis

The dashboard should help answer the following key business questions:

- Which **regions** and **product categories** generate the most revenue?
- Which **marketing channels** are most effective in driving purchases?
- How do **device types** influence customer buying behavior?
- What is the **contribution of gender and income levels** to overall sales?
- What is the **customer base size** and total **revenue generated**?
